

# Initiative “AI & Ocean” 2024-2027

## *PPR Océan & Climat*

<https://www.ocean-climat.fr/Le-PPR/Actualites/Intelligence-artificielle-Appel-a-postdoc-et-data-challenges>

**Contact:** Prof. Ronan Fablet, IMT Atlantique/ODYSSEY

**Email:** ppr\_oc\_pilotes\_ia@cnsr.ifremer.fr

# PPR Océan & Climat

(French Research Program on Ocean & Climate)

## PROGRAMME PRIORITAIRE DE RECHERCHE OCÉAN & CLIMAT 2021–2027

**Coordination CNRS/Ifremer :**  
W. Sanchez, B. Blanke

**President of the Scientific Board:** Y. Shin

**Actions and projects supported by the program:**

- Projets de recherche (CLIMARCTIC, FUTURE-OBS, MEDIATION, RIOMAR, FUTURISKS, LIFEDEEPER)
- PhD scholarships
- Systematic Literature Reviews
- Postdoc fellowships: AI-Ocean, Ocean-based solutions

<https://www.ocean-climat.fr/>

# Initiative “AI & Ocean”

**Scope:** <https://www.ocean-climat.fr/Le-PPR/Actualites/Intelligence-artificielle-Appel-a-postdoc-et-data-challenges>

## **Scientific and technological challenges targeted:**

- “AI-native” approaches in the Digital twins of the Oceans
- Better exploitation of the potential of observation and simulation data
- Acceleration and portability of numerical codes

## **Scientific Approach:**

- Structuring through “open” and “at-scale” ML-ready data challenges (benchmarks)
- Benchmarking of AI-native schemes vs. Operational systems
- Exploration of multiple solutions for each data challenge (postdocs)

**Integration in the framework of the European Digital Twin of the Ocean platform** (EDITO)

**Coordination:** R. Fablet (IMT Atl.), Y. Drillet (MOi), D. Durand (Covartec), Y. Shin (IRD), B. Blan   (CNRS)

## **Supporting resources:**

- Scientific and technological expertise of Ifremer, IMT Atlantique and Mercator Ocean International
- 2 research engineers to support the design and implementation of data challenges
- Up to 9 two-year postdoctoral fellowships (starting during fall 2025)

**Open call for postdocs:** [https://github.com/ppr-ocean-ia/data-challenges-info/blob/main/AAP\\_PostDoc\\_IAOcean\\_VF.pdf](https://github.com/ppr-ocean-ia/data-challenges-info/blob/main/AAP_PostDoc_IAOcean_VF.pdf)

**Kick-Off workshop: Brest, Octobre 8-10, 2025**

# Initiative “AI & Ocean”: Ocean Data Challenges

<https://github.com/ppr-ocean-ia/data-challenges-info>

**Scientific coordination:** R. Fablet, IMT Atlantique

**Technological coordination:** Q. Febvre, J.F. Pill (Ifremer), K. Ait Mohand, G. Cossio (IMT Atlantique), Q. Gaudel (Mercator Ocean Intl)

## Selected Data Challenges

- **DC1. Emulation of Global Ocean Reanalyses**
  - Scientific lead: J. Le Sommer (IGE), A El Aouni (Moi), S. Ouala (Odyssey), A. Storto (CNR)
- **DC2. Probabilistic short-term forecasting of global ocean dynamics**
  - Scientific lead: L. Drumetz, F. Sévellec (Odyssey), J. Le Sommer (IGE), S. Metref (Dallas)
- **DC3. Arctic Sea Ice Forecasting**
  - Scientific lead: S. Metref (Datlas), P. Rampal (IGE), J. Brajard (NERSC)
- **DC4. High-resolution monitoring and forecasting of tropical cyclones**
  - Scientific lead: Q. Febvre, A. Mouche, B. Chapron (Odyssey)
- **DC5. Marine Biodiversity Prediction**
  - Scientific lead: J.O. Irisson (LOV), L. Guidi (LOV), D. Mouillot (Marbec), A. Joly (LIRMM)

**Distribution Date:** September 2025 (before Kick-Off workshop)

# Call for Postdoctoral Fellowships

<https://github.com/ppr-ocean-ia/data-challenges-info>

**Deadline for application:** March 14, 2025

**Publication of the selected proposals:** March 31, 2025

**Who can apply?** (Co-)Supervisors of the postdoc (at least one being a permanent staff in a French university or research institue)

**Which scientific scope?** The only requirement is to address at least one of the five data challenges (cf. previous slide)

## Which evaluation criteria?

- The relevance of AI-native solutions proposed for the ocean data challenge(s) considered
- The relevance of the scientific questions addressed
- The novelty and the transformative potential of the project
- The expertise of the (co-)PIs to develop the proposed research project
- The integration into national and international collaboration networks
- The coherence of the resources with the objectives and scope of the project

**Template for applications available:** [link](#)
